

NEVADA SENATOR TAKES UP ARMS

Newlands Demands That the National Government Aid San Francisco.

POINTS OUT PRECEDENTS

STRICKEN CITY MUST HAVE OUTSIDE HELP AT ONCE.

San Francisco, June 15.—Senator Newlands of Nevada left for Reno today after completing plans for the rebuilding of the Palace hotel on a handsome scale than the old structure. Before leaving, Senator Newlands said:

"I am surprised that congress should hesitate to relieve in some business-like way the homeless of San Francisco. When cholera attacked the people and ransacked the draft animals of the Philippine islands, congress did not hesitate to appropriate \$3,000,000, which was used by the Philippine commission in loans to Filipino farmers for the purchase of draft animals and agricultural implements. Congress did not hesitate to give \$3,000,000 to Cuba under similar conditions. Later on it subsidized the sugar industry of Cuba by the reduction of duties to the extent of nearly \$10,000,000 per annum. A similar measure has passed the house in aid of the Philippines. Duties collected at San Francisco on Philippine products are now turned over to the Philippine commission for the expenses of government. Repeatedly, in aid of the merchant marine, subsidies have been granted and at the last session a bill passed the senate subsidizing the merchant marine to the extent of about \$10,000,000 annually. The president has been sending in messages forcing the subjects upon the attention of congress.

Uncle Sam in Business.

"The nation also guaranteed the bonds of the Pacific railroads to the extent of hundreds of millions of dollars. The nation became a stockholder in the St. Louis exposition to the extent of \$5,000,000 and lost its money, and subsequently, when the exposition was in trouble, loaned it \$5,000,000 upon the security of the gate receipts. Part of these things were done in aid of interstate and foreign commerce; others in aid of humanity. It is idle to talk of this case establishing a precedent. On the contrary, congress is apparently refusing to follow the precedents already established.

Should Help San Francisco.

"San Francisco is a national port of the greatest importance both to interstate and foreign commerce. It is a business-like thing for the nation to aid in its restoration. Over 200,000 people are homeless and are either in temporary shelter in San Francisco or crowded in neighboring towns. The business-like thing is to immediately house the people and the occupations which they represent in temporary structures of wood or corrugated iron, leaving the slow process of permanent construction to take its course through ordinary financial agencies. The commercial banks of San Francisco are in good condition but as they are responsible to their depositors on call, they must keep their money in quick assets, not in real estate securities. The banks of San Francisco are also in good condition, but their moneys are loaned out in the burned district and they are not undertaking new business. At least \$3,000,000 is immediately needed for the temporary rehabilitation of San Francisco. If available now it will be of more service than \$10,000,000 a year hence. The money must come from the outside. The insurance companies are moving slowly. Many are delaying in order to force heavy discounts; others have difficulty in securing funds and are fighting for time. Prompt action by congress in some form of aid which will supply work instead of charity is necessary.

State and City Crippled.

"The municipality is limited by its charter to borrowing for municipal purposes, subject to ratification by a popular vote. The state has also suffered through the paralysis of San Francisco, which is its very heart. Constitutional limitations restrain its power to act in this emergency. The nation can act quickly. The catastrophe is a national catastrophe, and is not purely local. Popular sentiment will justify aid. The charity has been well done. The business should be as well done. A rate loan of \$10,000,000 to the relief society would be a business-like use of the money. I believe that if the president will take up this matter with his vigorous messages it will force action by congress. The difficulty of the task did not prevent the president from recommending aid to the Cubans or to the Philippines or the subsidy to the merchant marine, or the various reforms which he has so successfully inaugurated. I trust that he will take the initiative and put the responsibility on congress of denying his recommendation."

Western Pacific Officials' Plan.

San Francisco, June 15.—W. J. Bartlett, vice president of the Western Pacific railroad and member of the committee on the part of the forty to Washington to appeal to congress for the loan necessary to rebuild San Francisco, has offered a plan for the expenditure of the \$5,000,000 remaining in the relief fund. He suggests in a letter to ex-Mayor Phelan distributing it among the sufferers. Bartlett, who does not favor leaving this entire fund for building purposes, believes that the money should be used to buy furniture for the refugees and for the relief of sufferers, as it was intended to be by the people who contributed it. He argues that the distribution of these funds will have a stimulating effect on the community and result in establishing many in business, relieving pressure on savings banks and helping the general mercantile community and thereby the commercial banks.

LUMBER MILL IS LOST.

Bellingham, Wash. June 15.—After an all night fight the citizens of Nakusp, on Arrow Lake, B. C., says a special from Vancouver, B. C., to the Herald, saved their town, but the big mill of the Yale Columbia Lumber company was totally destroyed, together with two million feet of lumber and several Canadian Pacific railway cars. The loss is \$40,000, largely covered by insurance.

Hair Help

So many persons have weak hair, lifeless hair, hair that falls out, splits at the ends, keeps rough and uneven. Such hair needs help. The roots need feeding with a good hair-food—Ayer's Hair Vigor. The hair becomes stronger, grows faster, stops falling out, keeps soft and smooth. Just feed your hair and you will be satisfied with it.

JOHN BULL TALKS MEAT

American Packing House Exposures Come in for Discussion by Lawmakers.

London, June 15.—A fresh lot of questions relating to the Chicago meat packing disclosures are being prepared for presentation in the house of commons. Michael Hicks-Beach, son of the former chancellor of the exchequer, will ask War Secretary Haldane to inform the house of the quantity of Chicago canned meat supplied to the troops in South Africa during the late war and what proportion of enteric deaths ought more probably to have been described as due to "ptomaine poisoning."

Another question is based on the discovery in the dining-room of the house of commons of a box marked "Armour's, (St. Louis, Chicago and Kansas City)—chickens."

Frederick E. Smith, unionist, will inquire what portion of the food supplied to the members of the house comes from Chicago. There was an incidental mention of canned meats in the course of today's inquiry into the South African stores' scandals. Evidence was given to the effect that army officers sold 20,000 cases of canned meats, including the Armour brand, Helmet brand and Mitchell's brand to a contractor for two cents a pound. The contractor complained that the meats were bad and returned the cases. The officer who sold the canned meats testified that he subsequently ordered the "filth to be dumped into the sea" and much of it afterwards floated ashore and was picked up by Kaffirs, who ate it, with the result that a number of them died of ptomaine poisoning.

Following the Flag.

When our soldiers went to Cuba and the Philippines, health was the most important consideration. Willis T. Morgan, retired commissary sergeant, U. S. A., of rural route 1, Concord, N. H., says: "I was twice in Cuba and two years in the Philippines, and, being subject to colds, I took Dr. King's New Discovery for Consumption, which kept me in perfect health. And now, in New Hampshire, we find it the best medicine in the world for coughs, colds, bronchial troubles and all lung diseases. Guaranteed at Z. C. M. I. drug department; price 50c and \$1.00. Trial bottle free."

WORK AT GOOD WAGES.

San Francisco Presents Opportunity for Iron Workers.

San Francisco, June 15.—Since the great fire the Union Iron works and other large manufacturing concerns in their line has found it difficult to fill their largely increased orders owing to the lack of men. There is a scarcity of pattern makers, machinists, metal workers and even of the common laborers needed in ship and engine building. The shops all work nine hours a day and the ruling wages are higher than anywhere else in the United States. It is said that some of these concerns will be compelled to refuse further contracts unless they can obtain more men.

Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stops the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes. F. J. Hill Drug Co., the Never Substitutors.

DRAINAGE VS. IRRIGATION.

Washington, June 15.—Senator Gallinger does not believe in diverting the irrigation fund so as to utilize it for drainage purposes, and said so today when Senator Mallory attempted to get the senate to act on a resolution authorizing a survey of the Florida everglades with the end in view of determining the practicability of draining them and converting them into farming lands. He referred to Senator Hansbrough's bill for the drainage of a million acres of overflow land in North Dakota and also to other projects, saying that there are many swamp lands in the New England states and adding: "If the country is going to get into that kind of game we want to get into it."

The resolution was ultimately sent to the calendar.

AMUSEMENTS

The advance sale for the engagement of Henrietta Crossman in "Mary, Mary, Quite Contrary," at the Salt Lake theater the first half of next week is progressing rapidly. Much interest is being manifested in Miss Crossman's approaching appearance.

Starting this afternoon at the Lyric, the Bittner stock company will present for one week only that strong military melodrama, "Northern Lights," with a company of forty people. The cast is an exceptionally strong one, and will include such well-known people as Jane Kelton, W. Bittner, Horace Carpenter and many others. It will be the largest production ever given here at popular prices.

Casino Park was crowded again last night to hear the last merry strains of "A Night in Morocco." Commencing tonight "The Grand Duchess" will be the bill for a week.

The last two performances of "Old Heidelberg" will be given at the Orpheum this afternoon and evening. Active rehearsals for "Shenandoah" the bill for next week, give promise that it will be the best yet produced by Mr. Mayall, Miss Stuart and the clever stock company.

Enormous crowds at the Salt Palace this week attest the popularity of the shows the management has been furnishing. The Dixie Carnival company has furnished exceptionally good entertainment, their acts, ranging from a turtle-faced boy to a thrilling leap from a ninety-foot ladder and a theatrical performance, offer a variety in which everybody should find something to please. The company will close today.

If you will make inquiry it will be a revelation to you how many succumb to kidney or bladder troubles in one form or another. If the patient is not beyond medical aid, Foley's Kidney Cure will cure. It never disappoints. F. J. Hill Drug Co., the Never Substitutors.

MOUNTS pickles are just enough better than all others so you can easily make the distinction.
